

Who is responsible for paying for required testing, including compaction testing, manhole vacuum testing, and air testing? Should these costs be included by the Contractor, or will they be paid by the Owner? OWNER

Is there a \$25 per day Non-Cherokee worker fee applicable to this project? YES

Per the previous Questions and Answers, it states that there is no work to be performed in Phase 6. However, onsite, Chris Lawley stated that Manhole 1F would still need to be connected to Manhole 3A under the road, which appears to be part of Phase 6 as shown on the phasing diagram. Please confirm whether this connection is to be included in the Contractor's scope, or whether Phase 6 is in fact excluded in its entirety. NOT TO BE INCLUDED. PHASE 6 WORK IS NOT A PART OF THIS RFP.
