

# Video Wall Animation

## Cherokee Nation Businesses

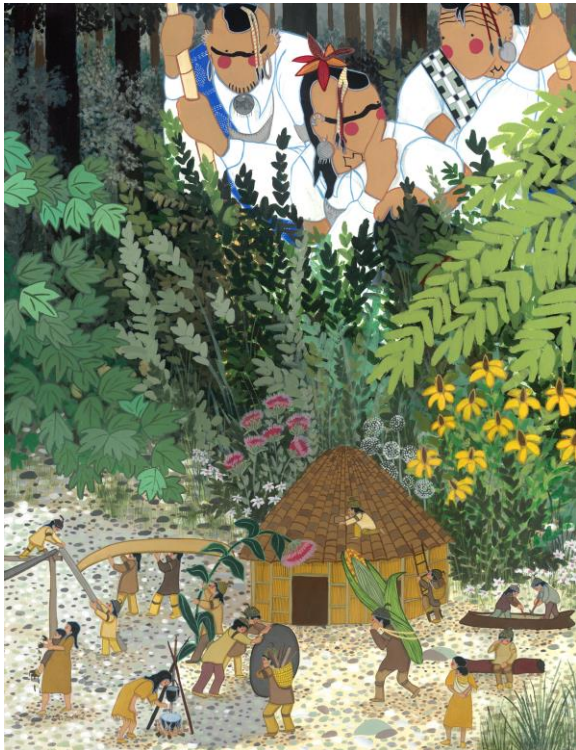

### **Project Scope**

Cherokee Nation Businesses (CNB) is accepting bids to create the animation content for two (2) separate video walls within the dental clinic of the new Cherokee Nation Outpatient Health Center, located in Tahlequah, OK.

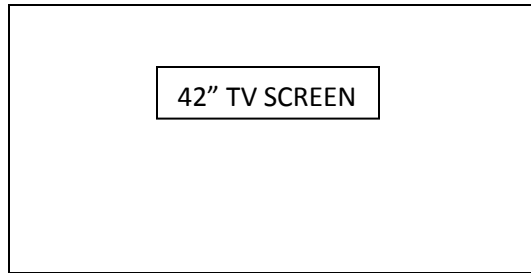

All hardware related to this project will be procured by CNB, and not the responsibility of the winning bidder.

Animation for each video wall will be tailored to a specific piece of art depicting a scene related to Cherokee history, culture and heritage. Each original flat art piece will be scanned into a high resolution file, which will be provided to the winning bidder. The maximum number of animations per screen is eight (8).

**Example: Utilizing the art sample below:**

For the purposes of this example – animation, using this sample scene, could include some of the little people at the bottom of the scene showing movement – Lady stirring pot, two people scraping the canoe, the person fixing the roof’s hand movements, maybe wind blowing the foliage. Or, at the top of the painting, the warrior in the middle, would move his finger to create a “shush” movement.

Each TV screen will be purchased by CNB to include required specifications.

Content Format: MP4

Content Resolution: 1920 X 1080

### **Submission Details**

**Deadline to submit responses is 3:00 p.m., September 12, 2018, to Charla Boroughs, CNE Purchasing Supervisor.**

Please submit responses digitally, by the deadline, to [charla.boroughs@cnet.com](mailto:charla.boroughs@cnet.com).

If you have questions, please call Charla Boroughs at 918-828-6288.
