

SCOPE OF WORK FOR RESTAINING OF VALET CONCRETE AREAS

Contractor shall prep, re-stain, and seal existing stained areas at East and West Valet. Clean up and dispose of any debris. Bidding parties will be responsible for obtaining their measurements and estimate affected area at pre-bid meeting.

Work must commence during agreed-upon days/times that will be determined during pre-bid. Each side will need to be completed independently and consecutively (BOTH SIDES CANNOT BE UNDER CONSTRUCTION AT THE SAME TIME).

All work will be by safety protocol set forth by both Cherokee Nation and local codes and procedures to include OSHA.

The bid must include a timeline and work schedule.
