

CHEROKEE NATION REQUEST FOR PROPOSAL FOR LABORATORY SERVICES

Methamphetamine

Question #1: “Could you provide some more detail as to the scope of this RFP? I see no indication as to the volume or frequency. Also, is there a collector required?”

Answer #1: As for the volume, Cherokee Nation did approximately 30 sampling events in 2020. It is impossible to state exactly a typical year, because that is determined by the needs of our internal entities. The Cherokee Nation collects all samples and mails to the laboratory, so no collector is required.
