- 3020 Commercial Washer Extractor

- E-SERIES HIGH PERFORMANCE 20-POUND CAPACITY WASHER-EXTRACTOR THE BOTTOM LINE—BOOSTED PRODUCTIVITY How can E-Series Washers produce more laundry per hour when compared to larger, lower-performance machines? The answer lies in wash and dry throughput. E-Series Washers reach much higher extraction speeds—resulting in greater moisture removal, shortened dry time and boosted productivity. E-Series Washers move soiled laundry through the wash and dry process faster. This boosts productivity, reduces labor costs and extends linen life by minimizing exposure to dryer heat and tumbling. Designed to drive down gas, water and electrical costs while improving productivity, Continental E-Series HighPerformance Washer-Extractors deliver high-speed extract, an easy-to-install freestanding design, unmatched durability and the ultimate in programmability!

- 3021 Commercial Electric Dryer

- E-SERIES HIGH PERFORMANCE 25-POUND CAPACITY DRYING TUMBLER Equipped with an oversized door, dryer window and cylinder light, E-Series Drying Tumblers are not only easy to use, they are incredibly efficient! With up to 25 pounds of capacity and gas or electric heat, E-Series Dryers are the right choice for any on-premise laundry with small load requirements. Loaded with industrialgrade features that ensure durability and simplify maintenance, E-Series Dryers are built to last.
