

Training Trailer Generator

We would prefer the Generator Compartment be an external Tongue Mount if at all possible. If it will fit under the exterior wall mounted A/C Compartment / Color Attached Fujitsu. We are trying to keep the noise of a generator down as much as possible, because it will be used for classroom training and events.

Tongue Mount Generator Compartment

A/C Compartment

If Tongue Mount Generator Compartment is not possible with the A/C Compartment. The Generator compartment would have to go in the L-Shape Lower Aluminum Cabinet or built into back cabinets.

Generators for Training Trailers:

Cummins Onan RV Generator Set Quiet Gasoline TMSeries RV QG 7000 EVAP.

Product Specifications

Model

- Model Number 7.0HGJAB-6756
- Manufacturer Cummins Onan
- Made In USA Yes
- Rated Watts 7kW
- Rated Amps 58.3
- Voltage 120V Single Phase
- AC Ton Rating Dual Roof AC
- Decibel Rating 7m 67 dB(A)
- Type Recreational Vehicle Generator
- Series Name Quiet Gas 7000 Series

Features

- Starting System Electric Start
- Low Oil Alert Yes
- Hour Meter No
- Weight 290 lbs
- Dimensions 33.6L x 22.2W x 16.7H

Engine

- Engine Brand Cummins Onan OHV EH65V
- Engine Size 4-cycle OHV V-Twin
- Engine RPM 2880
- Cooling System Air Cooled
- Alternator
- Alternator Type Brushed
- Frequency 60 Hz
- Auto Voltage Regulation Yes
- Fuel
- Type Gasoline
- Gauge 0
- Tank Material Customer Supplied
- Run Time .7 gal/hr
