

## Question and Answers 5.19.2023

Q: I want to clarify a couple of questions. 1st, I see that the cab interior allowances are removed from the spec, we are to bid with no interior upgrades allowances? 2nd, please confirm if the base estimate is in fact requiring new machines for the hotel elevators as it is indicated under replace with new.

A: The interior cab allowances have not changed. They are as outlined in the SOW.

Our understanding is the machines should be replaced. However, if, in your professional opinion, the present machines do not require replacement, then so state in your submission, or provide an alternate to replace. The vendor submission should be complete and as highly detailed for the Owner to make a competent award.
