**HOUSING AUTHORITY OF THE CHEROKEE NATION
INFORMATION REQUEST**

The Housing Authority of the Cherokee Nation is seeking information from prospective manufacturers to supply bed bug heating equipment. The equipment should be a glycol-based heating system (rather than electric or propane heat sources). HACN is seeking equipment manufacturers that can supply self-contained units in a bumper-pull trailer that contains all hoses, heat circulation units, power generation, monitoring kit, sprinkler covers, and other equipment's necessary to treat units 5,000 s.f or less. The equipment should be efficient and require only one person to operate the system in most situations and no specialized licensing or training is required.
